

CellVent™

Technical Data Sheet

CellVent for masonry cavity walls helps ensure that moisture can migrate out and air can circulate into the cavity, and that insects can't enter the cavity through the weep holes.

Features

- Made of durable polypropylene (tested in conformance with ASTM D2240, D790B, D638, and D1238B)
- Available in black, brown, cocoa, tan, gray, white, clear
- Custom sizes and cuts available on request
- UV Stable
